THRU and AND Number Searches

November 17, 2004

Both Filtered and Direct document searches have been enhanced to allow locating documents where a specific Document Number or ID falls within a THRU or AND range

MS150451THRUMS150500A
NAS1181THRUNAS1188
SAE-AS154701THRUAS155000

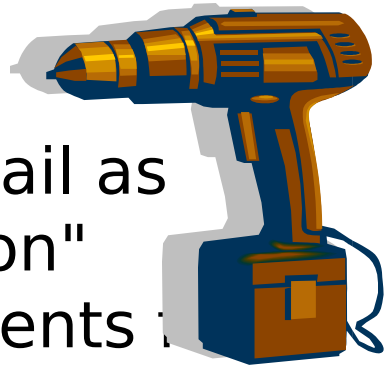

Search results will continue to return everything that was previously returned in those searches, but now also returns any THRU or AND documents whose range encompasses that Document Number as well.

PMT refers users to the DISRonline database for mandated IT standards
Overview:
Work Breakdown Structure
Documents:
To retrieve more information for a document, click on the link of its Document ID to display a Document Details page. You may also view document images by clicking on the Document Image icon at the top of the Document Details page.
Mandated IT Standards:
The PMT is intended primarily for ensuring materiel interoperability. Program Managers should also review standards mandated for the management, development, and acquisition of new or improved IT systems throughout the DoD. These are maintained in the DoD Information Technology Standards and Profile Registry (DISR) and may be viewed at the DISRonline web site.

Dynamically Sort the SD-4 Project Update Screen

January 21, 2005

The Projects List on the Project Update screen in the Project Maintenance module can now be sorted on a user-selected value by clicking on a column header in the list

This default screen lists projects in descending Last Transaction date order, but by clicking any of the column headers, the list will be redisplayed with the list sorted on that column

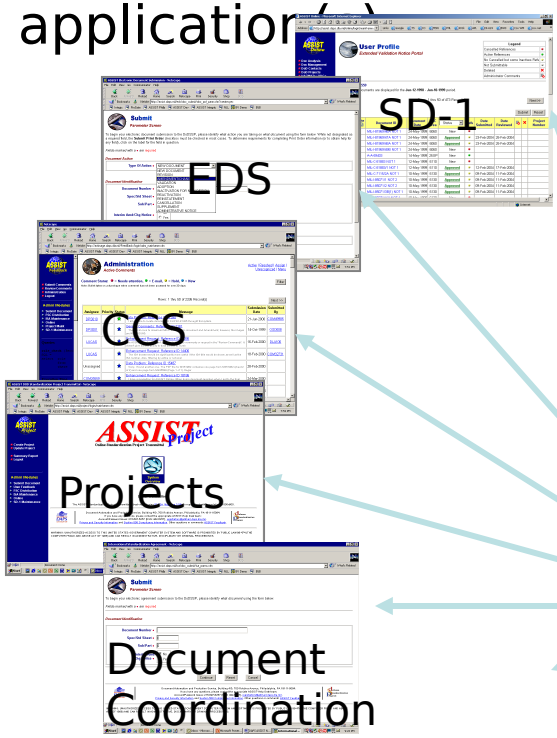

Clicking again reverses the sort order

If more than 50 projects, resorting restarts the list beginning with the first row … Clicking 'Previous' or 'Next' displays the previous or next screen of projects with the selected sort order preserved

dministration Application

Single Portal Login

- ASSIST-Online is the portal for document management tools
- Menu options displayed for users authorized to use application(s)

Progress on Promises

- **Maintenance actions**
  - **Adding historical documents (a.k.a., cleaning out the warehouse)**
  - **DODSSP still at it (added 10,857 document files during Fiscal Year 2004)**
  - **Removed the “current” and “historical” column (will replace with document date column)**
  - **Effort completed Dec 2004; still performing quality checks; hope to implement by end of month**

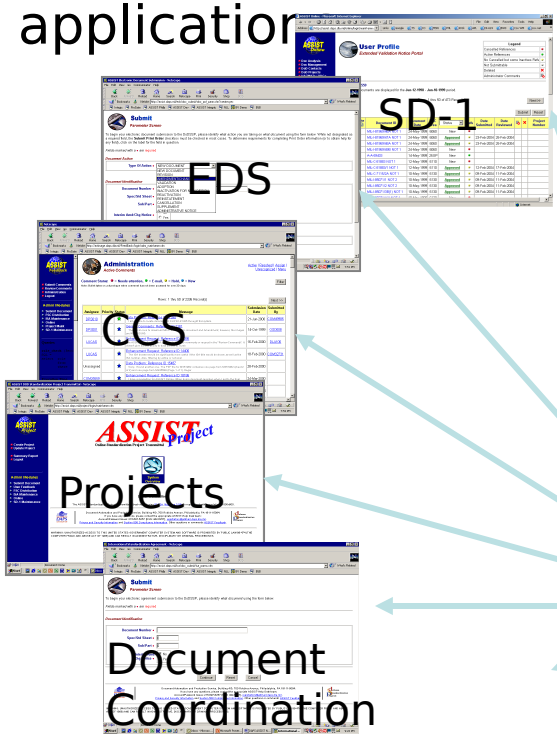

Progress on Promises

- **Maintenance actions**
  - **Developed system requirements document for modernization of the DAPS Maintenance Platform**
  - **Have begun implementing Maintenance Platform Modernization; still more to be done**

dministration Application

Single Portal Login

- ASSIST-Online is the portal for document management tools
- Menu options displayed for users authorized to use application

Progress on Promises

- **Core user modules**
  - **Automatic Document Number (ASSIST ADN) (beta tested; policy memo being staffed with DepSOs)**
  - **Implemented by Policy Memo 04-1 (3 Aug 2004)**
  - **Automatic Project Number utility (alpha testing)**
  - **ASSIST Project v2 tested, tweaked; draft policy Memo under review; expect April 2005 release**

Progress on Promises

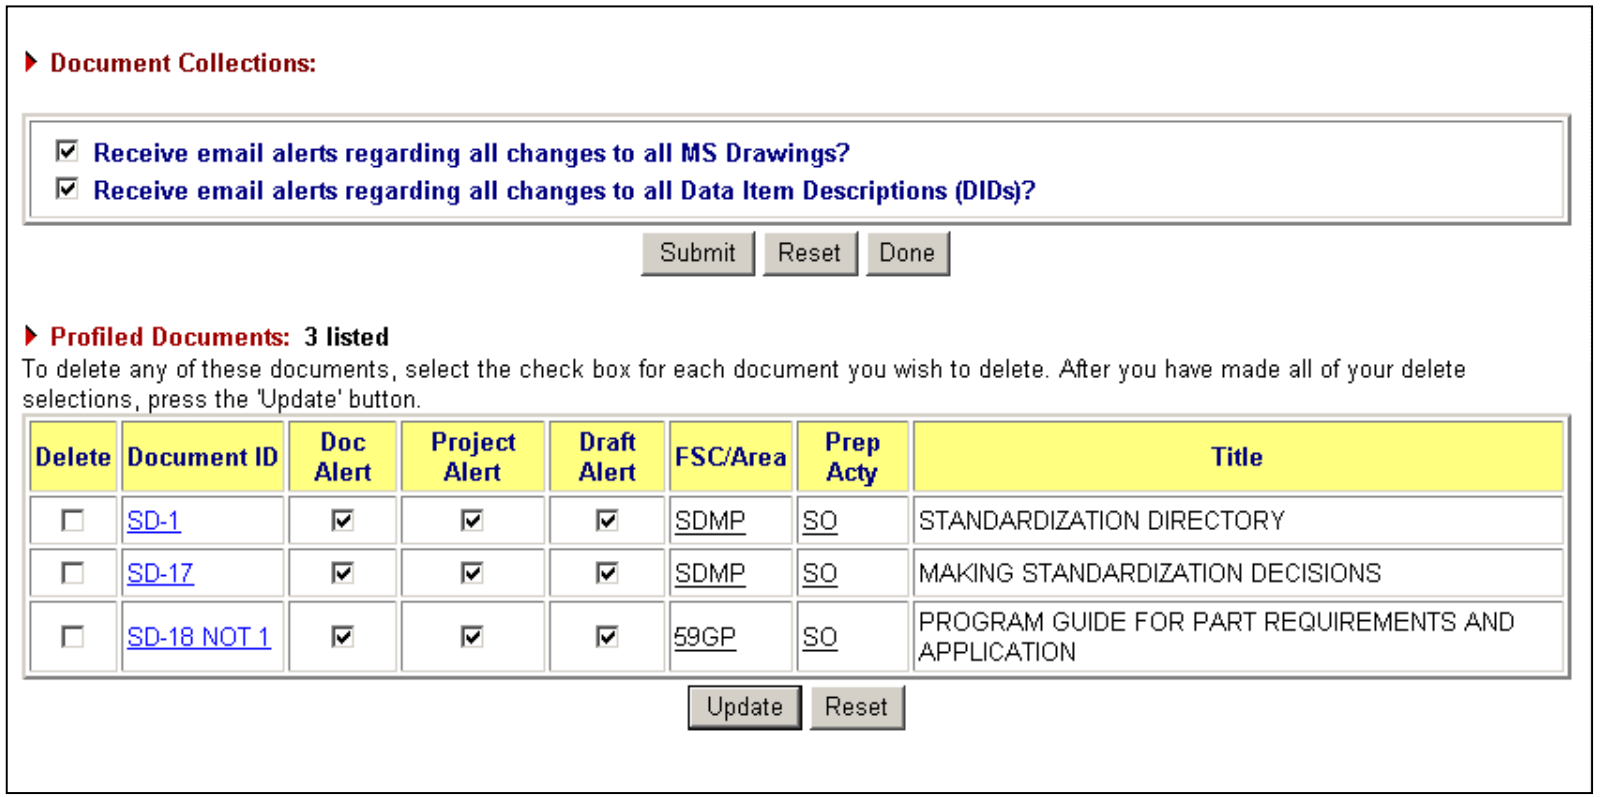

- **Core user modules**
  - **Enhanced EDS module (merges EDS/ISA) – 05**
  - **EDS v2 beta testing w/selected SMAs (Apr 2005)**
  - **Basic document coordination (drafts) – 05**
  - **Need to draft policy; expect to implement by May 2005**

Document Coordination Module Features

- **Enforces procedures (e.g., must have approved project number; otherwise use ASSIST Project v2 to get one)**
- **Populates notification distribution list with SD-1 essential reviewers**
- **Lets Preparing Activities add other non-essential reviewers or delete “essential” reviewers with known non-interest**
- **Provides temporary access to ASSIST-Online for non-ASSIST account holders**
- **Aggregates comments by paragraph number, and sorts comments by essential and non-essential**

Document Coordination Module Features

- **User Profile module modified to add “Drafts” as a check box option for ASSIST Alerts**

Future Plans

- **Complete modernization of the maintenance applications (control document distribution at the document part level)**
- **Establish better security and access to controlled distribution documents (roles and access)**
- **Develop system requirements document**
- **Host another ASSIST user group (earlier in year)**
- **Field Qualification Database (develop phased implementation strategy)**

System Metrics

Last Year

Data and System Processes:

- **108,542** documents indexed
  - **40,055** active/inactive
  - **65,111** canceled
- **2,735** active DSP projects
- **21** major publications produced

Users and Related Activity:

- **81,000+** active user accounts
  - **19,000+** military / government
  - **61,000+** commercial / other
- **27,000+** logins monthly
- **168,000+** incoming links monthly
- **297,000+** doc downloads monthly

This Year

Data and System Processes:

- **109,400** documents indexed
  - **40,616** active/inactive
  - **65,478** canceled
- **2,757** active DSP projects
- **21** major publications produced

Users and Related Activity:

- **35,000+** annual alert notifications
- **82,000+** active user accounts
  - **13,000+** military / government
  - **33,000+** commercial / other
- **26,000+** logins monthly
- **162,000+** incoming links monthly
- **239,000+** doc downloads

Future Opportunities

- **Establish link or protocol with NSDD database**
- **Continue to work with integrating DISA**
- **Make it easier for users to access NGS documents where DoD contracts or licenses are in effect, (e.g., DoD Biometric Standards Office)**
- **Develop more seamless integration of WSIT and PMT with ASSIST**

Potential ‘Potholes’

- **May have to discontinue assistdocs.com**
- **May have to limit non-DoD users access to ASSIST-Online**
  - **Plan to implement way to qualify DoD contractors and Government contractors**
  - **Plan to review all ASSIST features to determine which can be made available on assistdocs.com or Quick Search**
- **Lack of Service Involvement limits ability to populate PMT**
- **Lack of access to other than DLA data limits utility of WSIT**
